

# Over the next year, Walsall Central Library in Lichfield Street is set to be modernised and improved so we can provide a 21<sup>st</sup> Century Library Service and Archive for the people of Walsall.

This means that from **Saturday 23 December 2017** these library premises will be closing temporarily for up to a year while renovation, restoration, redecoration and building work is carried out.

## What Library Services are available in the Town Centre while the building work goes on?

- From Monday 5 February 2018 Walsall Council is providing a temporary replacement library service from within the Walsall Council Building in Lichfield Street.
- The temporary Central Library Service will provide a reduced service but will still offer computers, the general library and children's library.
- Opening hours will increase as from Monday 5 February 2018 – the library will also be open on Mondays.

**Walsall Council**
